01 · About us

Global Sourcing Manufacturers S.A.C. (GSM) is a garment cut-make-trim (CMT) and apparel manufacturing company operating under export standards. Our production facility is located at Jr. Alfonso Ugarte 571, Los Álamos, Pueblo Nuevo, Chincha, Ica, Peru (Tax ID: 20608011944).

We specialize in CMT services for both local and international clients, taking full ownership of each production order — from intake and scheduling through to final delivery of the finished garment.

02 · In-house production processes

We integrate the three core garment manufacturing processes under one roof, enabling us to manage traceability, quality control, and delivery timelines from start to finish.

Cutting

Precision fabric spreading and cutting area. Equipped with 1 spreading table, 2 industrial cutting machines, and 1 band knife.

Sewing

We operate 2 specialized sewing lines — the Basics Line and the Semi-Fashion Line — along with a dedicated sample development line. Every line has its own integrated quality inspection table.

Machinery — 38 units

Straight stitch	Overlock	Coverstitch	Basting	Binder
14	11	6	6	1

Finishing

Two finishing tables equipped with industrial steam irons, where each garment goes through final pressing and quality review before packing and dispatch.

03 · Administrative office

Our administrative offices are integrated within the production facility, enabling direct day-to-day coordination between the commercial and production teams for prompt, responsive service to every client.

04 · Monthly production capacity

Output is adjusted to the style being manufactured, following validation of the engineering sheet, technical specification, and approved prototype. The figures below are reference values for cutting and sewing processes:

30,000	3,000
Basic T-shirts per month	**Fashion garments per month**

These figures are indicative and may vary depending on garment complexity.

05 · Leadership team

Our company is led by a management team with extensive experience in the garment export sector. Their core responsibility is to ensure on-time delivery, maintain agreed quality standards, and keep clients accurately informed at every stage of production.

06 · Certifications and compliance

We hold a valid operating license for our production facility. We also carry the following certifications recognized within the Peruvian export sector:

Certification	Issuing authority	Validity
Good Manufacturing and Marketing Practices (BPMM 2017, Version 03)	Global Certification Bureau S.A.C. · N° GCB-PE-251207	December 1, 2025 — December 1, 2028 · Subject to satisfactory follow-up audits
5S Program — First step toward quality	PROMPERÚ · Directorate of Export Development	March 19, 2024 — July 16, 2024 · 78 hours · 100% implementation

The scope of the BPMM certification covers the manufacture, marketing, and provision of made-to-order garment sewing services for third parties, including textile accessories and related items.
